Under the current regulations, the Board is required to maintain a continuous up-to-date register of production units.

SECTION 2 increases the number of registered producers elected to the Board to 12 from 9, and re-defines the boundaries of the three districts described in the current regulations into four districts using the boundaries of the agricultural districts.

SECTION 3 removes the initial term of the members on the Board since this section was redundant once the first election took place after enactment of the regulations.

SECTION 4 more clearly defines the balloting process, including the documents mailed to registered producers. The section replaces the requirement to have the registered producer's signature on the counterfoil, with the requirement that the counterfoil contain the name of the production unit and the producer's name. The section also revokes the requirement that the returning officer compare the signature of the registered producer on the counterfoil with the signature of the producer on the register of production units.

SECTION 5 grants authority for members of the Board to serve two consecutive three-year terms in office. The current regulations only allow members of the Board to serve one full three-year term in office.

SECTION 6 provides for the commencement of these regulations.
